

Help your loved ones manage their care

- Healthcare Made Simple -

Manage your child's health records and services

- One time setup required for each parent is required.
- If the setup was performed in HealthHub, the relationship will be displayed in the OneNUHS app

Step 1: Care Recipient

After granting consent in the Care Recipient's account

Step 2: Caregiver

Manage your dependent's health records and services

- Consent must be granted from the care recipient's account first before caregiver can add dependent
- If the setup was performed in HealthHub, the relationship will be displayed in the OneNUHS app
